

Lisa Maria Fox

Lisa Maria Fox is the Founder and Executive Director of [Sustainability Resources](http://www.sustainabilityresources.ca/), a freelance consortium based in Alberta that provides professional and educational resources for sustainability. Lisa also founded [Pathways 2 Sustainability](http://www.pathways2sustainability.com/), an events based initiative that supports community capacity to implement sustainability goals for water, waste, energy and food systems.

Lisa is a policy specialist and actively works with all levels of government, industry and corporate leaders to create and influence public policy and regulatory pathways for innovations and sustainability solutions for water, waste and energy. Lisa has served on several provincial and national policy boards, and was also appointed by the Alberta Government Cabinet to represent water interests in the development of the Southern Alberta Regional Plan under the Land Use Framework.
